

MOVES#141 Thomas Scheibitz »Christian Morgenstern – Remixes«

Edition launch

Saturday 18 March 2017, 6pm

Dear Friends,

Image Movement is delighted to host the launch of Thomas Scheibitz's edition of »Christian Morgenstern – Remixes«.

Christian Morgenstern was a renowned producer of electronic music, and is an inspiration for a young generation of artists who are the bearers of techno today and other forms of contemporary electronica. For the first time ever **Morgenstern's** entire catalog has been made digitally available – accompanied by a limited re-mastered series of eight 12" records that additionally feature remixes by artists such as Distant Echoes, Alexander Kowalski, Ben Kaczor, Efdemin, or Oscar Mulero.

This series of releases wants to celebrate both his life and his work.

The cover art for each record is 1/8th of a piece by American artist Nathan Baker.

For the design of the box set containing all eight 12"-records commissioned Berlin-based artist

Thomas Scheibitz.

Scheibitz is a painter and sculptor who was aptly described as an *old-fashioned draughtsman with a hyper-modern mind*. His work is brilliant, exquisitely made and highly intelligent: "Shapes rhyme, rhythms recur, colours reappear, and the strong lines sweep through objects and images with a suave and celebratory force. **Scheibitz's** work is extraordinarily various, never once repeating itself, and yet everything appears genetically linked." (Laura Cumming, *The Guardian*, 2013/6/26). **Scheibitz's** beautiful piece, a bespoke wooden coffer, is handmade, bedaubed, and limited and numbered to seven pieces (plus 2 AP). It will be on view and available at Image Movement. It is **Thomas Scheibitz's** strong affinity for music that isn't stereotypically fitting into any genre, which was key to this collaboration.

Admission to Image Movement is free. And please note, the event takes place on a Saturday, at 6pm.
